

Product Categories

Product information management > Common > Released products > Product tab

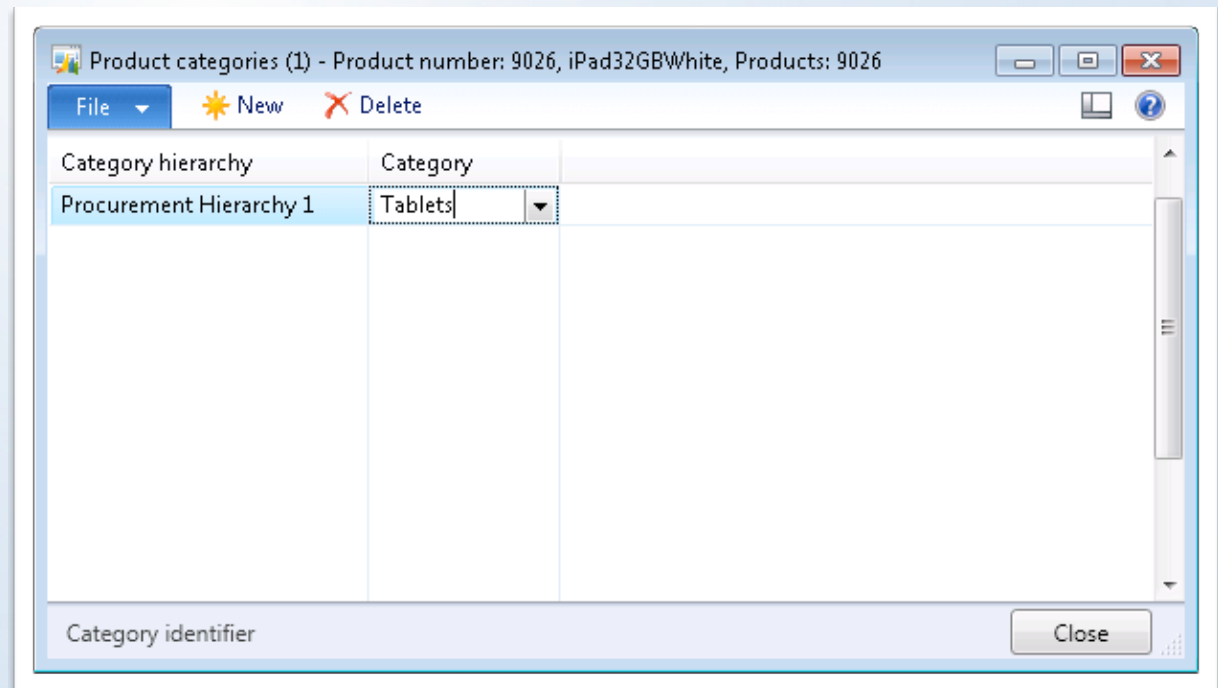

Summary Product categories organize products in a tree structure for easier searching. Categories are especially useful for filtering on the Enterprise portal where there are fewer search options.

Steps 1. Assign a Product category

Tips • Try to structure the category tree so there are a similar number of items in each category

Assign a Product category

- Click the **Product categories** button.
- Select the **Category hierarchy**.
- Choose the **Category**.

Movie 1.2 Product Categories

The screenshot shows the SAP Product Categories configuration interface. The main window is titled "Product categories (1) - Product number: 9027, iPad64GBWhite, Products: 9027". The left sidebar contains a "Navigation pane" with "Favorites" and "Navigation pane" sections. The main area displays a table with columns "Category hierarchy" and "Category". The "Category hierarchy" column shows "Procurement Hierarchy 1" and the "Category" column shows "Tablets". Below the table is a "Category identifier" field. The right sidebar shows "Related product variants" with a "Product number" field and a message "This grid is empty." Below this is a "More" link. The bottom of the screen shows the product details for "9027 : iPad - 64GB - White", including the product number "9027", description, and dimension groups: "Product dimension group: ", "Storage dimension group: SiteWarLoc", and "Tracking dimension group: None". The status bar at the bottom right shows a bell icon with "(0)", the currency "USD", and the company code "ceu".
